

Report on our trip to the exhibition 'Eine Stadt wird bunt!'

On the 3rd February 2023, our class 8c from Gymnasium Marienthal visited in the exhibition "*Eine Stadt wird bunt.*" in the Hamburg's history museum.

The reason for our visit was that we wanted to gain more knowledge about the history of our city and the teenagers there in the last century.

The exhibition is mainly about the beginning and the development of graffiti but it is also about the lives of teenagers and their interests at that time.

So, the exhibition was divided into different sections that are focusing on music, graffiti, and clothes.

From a young person's point of view the taste of music and the very colorful clothes were very special at that time! They were also very creative and the teenagers expressed their feelings, emotions and interests with their graffiti and clothes.

We can recommend visiting '*Eine Stadt wird bunt*' for the following reasons:

It's important to know that every picture and every drawing has a background and a meaning for the teenagers, which makes it interesting.

It also depends on the people and their personality if they like to have more information about the past and like to think about the things which are on their minds.
